Automationdirect.com, originally founded as PLCDirect in 1994, has quickly grown from a tiny PLC company to a well-recognized name in the Industrial Automation Market. As the first industrial controls company to successfully use a direct sales catalog for PLC products, Automationdirect.com is now using its cyberspace superstore, in addition to its 800 number, to reach the next plateau in industrial control.

Our control solutions set the standard — from the original programmable logic controller (PLC) invented in the 1970s to the technology embodied in the scalable, multi-disciplined and information-enabled programmable automation controller (PAC). Our safety-certified controllers support your SIL 2 and SIL 3 application needs. We offer multiple controller types and sizes to fit your specific needs. **www.ab.rockwellautomation.com**

Adept Technology, Inc. is a global, leading provider of intelligent vision-guided robotics systems and services. Adept systems provide unmatched performance and economic value throughout the production lifecycle, enabling customers to achieve precision, quality and productivity in their assembly, handling and packaging processes.

EPSON Robots first came to the North and South American market back in 1984 as the EPSON Factory Automation group began to share its expertise in high precision small parts assembly with other manufacturers on a worldwide basis. Originally created to support internal automation needs, EPSON Robots quickly became popular in many of the top manufacturing sites throughout the world. Over the past nearly 26+ years EPSON Robots has been leading the industry for small parts assembly applications and has introduced many industry firsts including PC based controls, compact SCARA robots, and much more.
